## 3000 SERIES

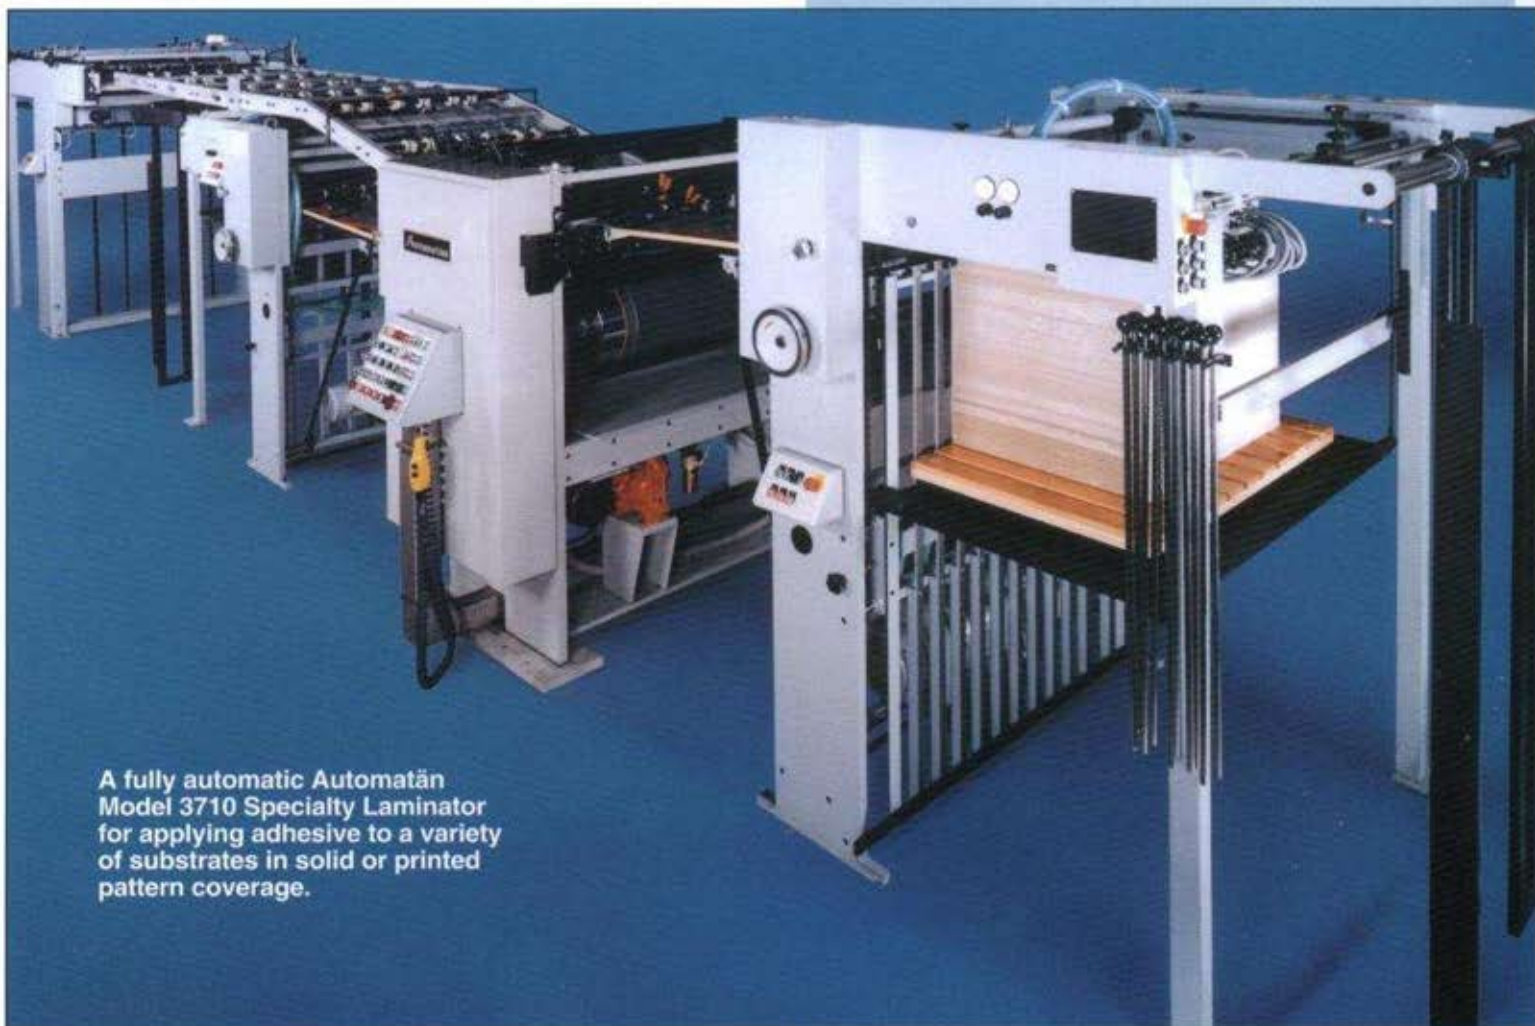

*A recognized leader in the corrugated industry laminating field, Automatän has been producing laminators for over 20 years, with hundreds of installations in the field. The majority of corrugated packages combined with litho printed sheets in North America are produced on Automatän equipment, and as the international boxmaking and display industries are turning more and more to spot labeling as an attractive market, we see Automatän laminators becoming the equipment choice around the world.*

*Consistently high quality technical support from Automatän's team of trained technicians based in Wisconsin is ensured through the design of our service program — the person who assembles a machine also has responsibility for the installation of that machine. Our commitment to the success of our equipment users is at the heart of Automatän's leadership role in point-of-purchase graphics.*

**Quality, accuracy,  
and productivity  
make specialty  
laminating profitable.**

*3000 Series Specialty Laminators from Automatän are leading the industry in quality, accuracy, and productivity.*

*Specialty laminating offers exciting opportunities for the fast growing game card, mounting, and specialty advertising markets. Any printer with an eye on a profitable future in these markets will recognize the value of having the highest quality, fully automatic laminating equipment.*

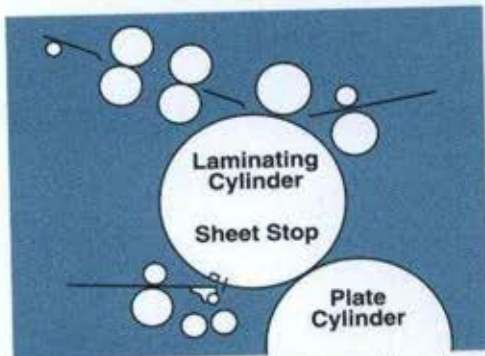

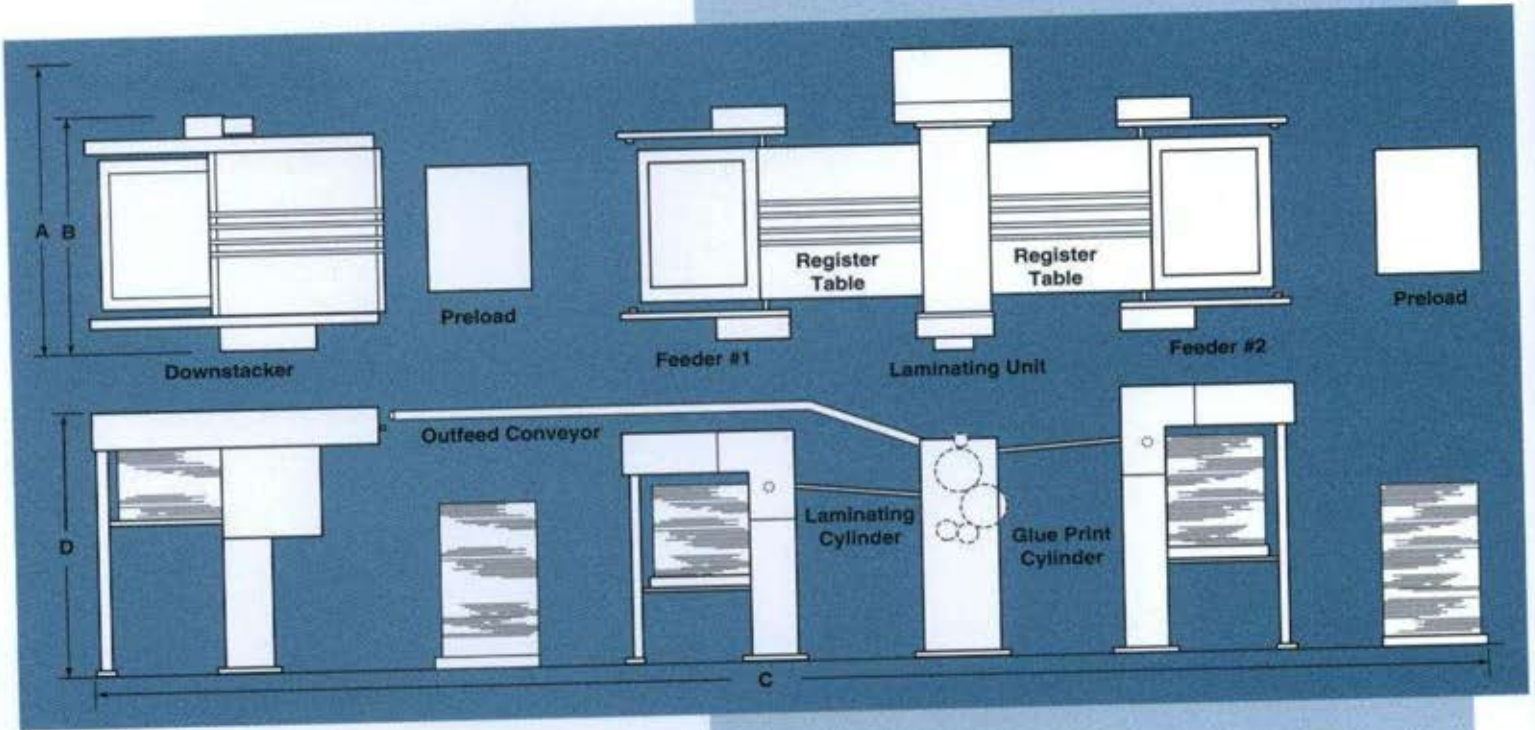

**A fully automatic Automatän Model 3710 Specialty Laminator for applying adhesive to a variety of substrates in solid or printed pattern coverage.**

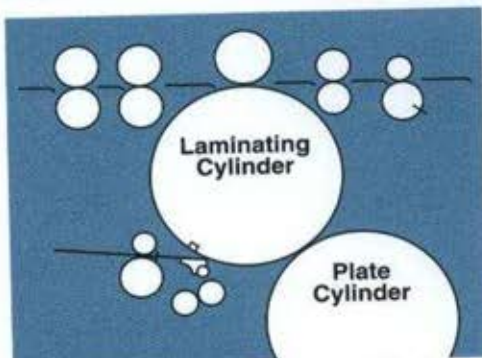

**Automatän** Achieve maximum quality and productivity

# 3000 SERIES

Laminators can be built for special applications and custom configurations.

STS (Sheet to Sheet) Laminator with a sheet stop on the laminating cylinder for precision registration +/- .015" (0.375mm)

STB (Sheet to Board) Laminator with straight paper line for heavy board stock with registration +/- .040" (1mm)

## SPECIFICATIONS

MODEL 3710		STS		STB	
		SHEET SIZE		THICKNESS	
FEEDER #1	Maximum	28" x 40" (700 x 1000mm)	.024" (0.6mm)	.024" (0.6mm)	.024" (0.6mm)
	Minimum	14" x 14" (350 x 350mm)	.003" (0.075mm)	.003" (0.075mm)	.003" (0.075mm)
FEEDER #2	Maximum	28" x 40" (700 x 1000mm)	.024" (0.6mm)	.125" (3.2mm)	.125" (3.2mm)
	Minimum	14" x 14" (350 x 350mm)	.005" (0.125mm)	.007" (0.175mm)	.007" (0.175mm)
SPEED:		Maximum	6000 sheets per hour		

MODEL 3730		STS		STB	
		SHEET SIZE		THICKNESS	
FEEDER #1	Maximum	43" x 65" (1100 x 1650mm)	.024" (0.6mm)	.024" (0.6mm)	.024" (0.6mm)
	Minimum	16" x 16" (400 x 400mm)	.003" (0.075mm)	.003" (0.075mm)	.003" (0.075mm)
FEEDER #2	Maximum	43" x 65" (1100 x 1650mm)	.024" (0.6mm)	.125" (3.2mm)	.125" (3.2mm)
	Minimum	16" x 16" (400 x 400mm)	.005" (0.125mm)	.007" (0.175mm)	.007" (0.175mm)
SPEED:		Maximum	6000 sheets per hour

# Automatän Specialty laminating offers profit opportunities

## **Fast accurate feed systems and rugged construction offer non-stop productivity.**

*The 3000 Series Laminators apply glue to a variety of substrates in solid or printed pattern coverage with precision accuracy at production speeds to 6000 sheets per hour.*

*Each laminator in the 3000 Series is constructed of the highest quality material to ensure years of consistent productivity. These laminators are designed for operator convenience. Easy accessibility to the glue rolls and glue printing cylinder, as well as quick lock handles for fast simple adjustments without tools, makes set-ups and clean-ups a breeze.*

*The popular Model 3710 Laminators are equipped with non-stop feed features and preload transfer systems for both label and board feeders, as well as with automatic non-stop downstackers for continuous productivity. Proven sheet feed technology from the printing industry offers the same speed, accuracy, and easy set-ups associated with fine printing.*

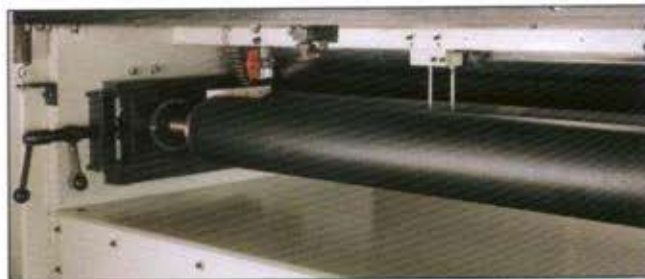

**SHOWN BELOW:** The glue rolls consist of a metering roll and an anilox glue transfer roll for precise glue application. High-low sensitivity probes monitor glue levels and prevent glue flooding.

## **3000 SERIES**

*Automatän is the acknowledged leader in litho laminating for the corrugated packaging industry, and brings the same leadership and dedication to the specialty laminating industry.*

**SHOWN ABOVE:** A cam driven pinch roll pulls each sheet to its final side registration. Individual cam driven pinch and acceleration rolls then advance the sheet to the laminating cylinder.

**SHOWN ABOVE:** Easy accessibility to the glue print cylinder makes set-ups and clean-ups simple and fast.

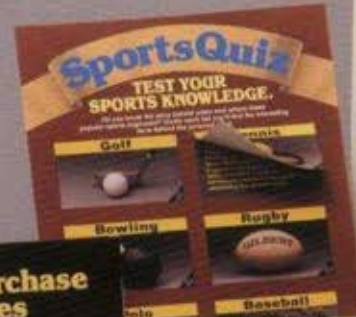

**SHOWN ABOVE:** Superior workmanship, top quality materials, and easily adjustable quick-lock handles ensure years of consistent service and easy operation.

# Automatän Laminating is ideal for specialty trends

Precise registration, consistent adhesive application, and high production speeds put Automatän laminators ahead of the competition in specialty laminating markets.

## Always Follow Smokey's Rules.

The 3000 Series Specialty Laminators are designed to laminate many products including: pull tab and bingo game cards, point-of-purchase display easels, duplex papers, re-moist glue patterns, children's puzzles and game boards, advertising specialties, as well as many other applications.

Put your imagination to work and explore the possibilities that specialty laminating and Automatän laminators offer.

## Serving the Paper/Paperboard Industry

*Automatän Incorporated is an international manufacturing and marketing company serving point-of-purchase paperboard converters and printers.*

*Call **Automatän** for the following equipment:*

**Sheet-to-Sheet Laminating:**

*Automatän® Litho Laminators for Spot and Full Labeling*

*Automatän® Single Face Litho Laminators*

*Automatän® Dual Function Litho Labelers/  
Single Face Laminators*

*Automatän® Pattern Laminators for Specialty Markets*

**Printing:**

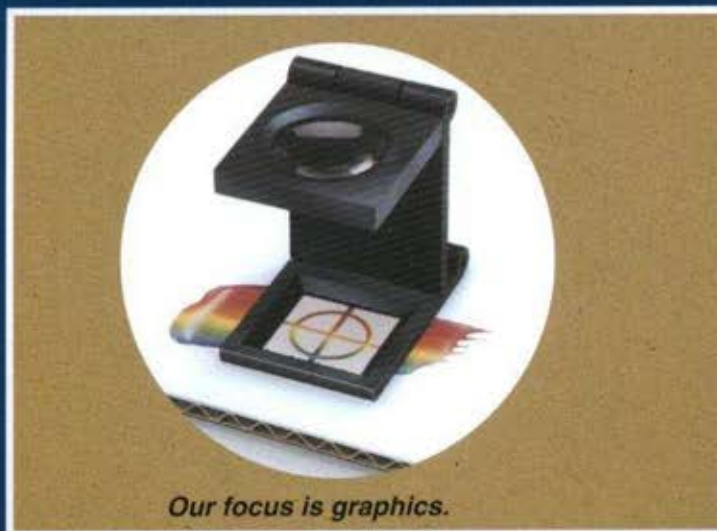

*Automatän Inkontrol® Automatic Flexo Ink Viscosity and pH Control Systems*

**Paper and Board Handling:**

*Automatän® Load Turners*

*Automatän® Jogger/Aerators*

*Automatän® Automated Transport Systems*
