

The leading supplier of sheet-to-sheet laminating equipment introduces a new model to its laminator family:

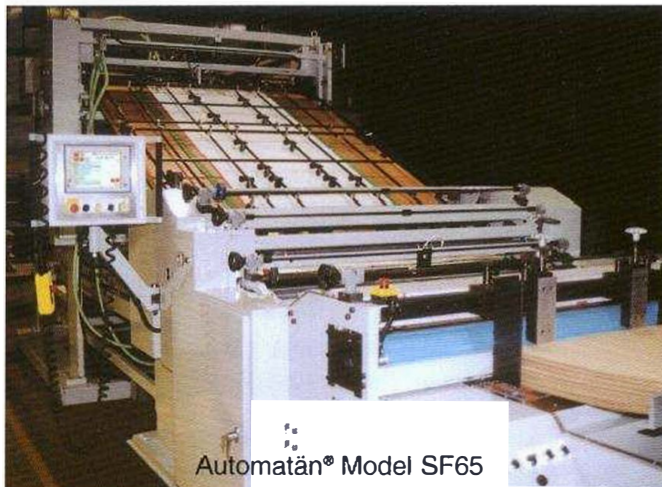

# SF65 SHEET-TO-SHEET LITHO LAMINATOR

**A high-precision, high speed singleface laminator designed for easy board prefeed capability.**

Automatan presents the Model SF65 Laminator for singleface litho laminating.

If you are ready to claim your share of the rapidly growing corrugated graphics market, Automatan is ready to assist in your success with the SF65 laminator.

The SF65 is the first high-speed singleface laminator with an open board feed concept, allowing easy board feeding, and the capability of automated board prefeed.

The SF65 features re-registration of the label for precision sheet-to-sheet and full mount laminating.

The Automatan SF65 precisely laminates litho-printed top sheets to sheets of single-face of any flute (or solid board and double-face from mini-flute through doublewall.)

At speeds to 10,000 sheets per hour and short 10-15 minute set-up times, the SF65 is ready to serve both short-order runs and high production jobs.

## Product Specifications

	Board	Top sheet
Minimum	20" x 20" (510mm x 510mm)	20" x 20" (510mm x 510mm)
Maximum	65" x 65" (1650mm x 1650mm)	65" x 65" (1650mm x 1650mm)
Thickness	mini-flute through doublewall	up to .030" (100 gsm)

Specifications subject to change without notice.
