

TECHNICAL IMPROVEMENT PROGRAM

TIP-10013

Machine Model for the Improvement:

AutoMax and EM

Description of Improvement:

This option supports the application roll during the installation of new glue bands on the machine

Benefits to this Improvement:

This tool provides a safer way to install glue bands by providing support to the application roll during the installation of new glue bands. It also reduces the amount of time it takes to install the bands as the tool provides storage for the new bands at the same time it supports the roll.
